
PRODUCT DESCRIPTION

The ICF Hanger System is a labor-friendly connection system designed for securely attaching wood floor joists and facilitating wood roof connections. This innovative system provides a reliable and efficient method for integrating structural elements with Nudura Insulated Concrete Form (ICF) walls.

BASIC USES

The ICF Hanger System serves as a secure connection point for:

- Attaching wood floor joists to Nudura walls
- Connecting wood roofs to ICF structures
- Anchoring or fastening interior and frame partition walls to ICF walls

AVAILABILITY

- Standard Flat
