
PRODUCT DESCRIPTION

The Surface Mount Brick Tie and Pintle is a versatile component designed for use with Nudura Insulated Concrete Form (ICF) systems. The purpose of this product is to securely fasten masonry to the Nudura form. The Brick Tie is fastened using two Nudura Hex Head Screws anywhere along the Nudura fastening strip, while the Pintle connects and supports the masonry.

BASIC USES

The Surface Mount Brick Tie and Pintle is designed to secure masonry to Nudura ICF system. It is suitable for use in various construction applications requiring reliable masonry anchor solutions.

FEATURES & BENEFITS

- This tie is compatible with Nudura pintles as well as other pintles of smaller dimensions, providing flexibility and reliability in various construction scenarios.
- Tested to meet ASTM D754 (USA) and CSA-A370 (CAN) standards for masonry anchors.
- Manufactured with stops that penetrate the foam and prevent the tie from compressing the foam.

AVAILABILITY

The Surface Mount Brick Tie and Pintle is available from your local Nudura distributor. For Distributor locations, visit <https://www.nudura.com/>.

PACKAGING

The Surface Mount Brick Tie ships in one box of 100 pieces. Pintles are available separately in one box of 100 pieces.

STORAGE

Store the Surface Mount Brick Tie and Pintle in their original, undamaged packaging in a clean, dry location.
