
PRODUCT DESCRIPTION

The One Series Jig is a metal tool designed to streamline the assembly of the One Series form on-site. It holds Dura Multi-Link Ties in place using 12 designated slots. Alignment tabs at both ends of the jig ensure precise positioning of the Plypan panel. By keeping components correctly aligned, the jig minimizes manual adjustments and enhances accuracy.

BASIC USES

The One Series Jig is used to facilitate the accurate and efficient assembly of the One Series form. It ensures proper alignment and secure placement of components.

FEATURES & BENEFITS

- The One Series jig improves accuracy by securely holding Dura Multi-Link Ties in designated slots.
- Built-in alignment tabs help position the Plypan panel correctly, ensuring a precise assembly.
- The durable metal design provides long-lasting reliability for repeated use.
- Using the Jig reduces installation time and minimizes the risk of assembly errors.

AVAILABILITY

The 4-Way Web Connector is available from your local Nudura distributor. For Distributor locations, visit <https://www.nudura.com/>.

PACKAGING

- Quantity: 1 Jig

STORAGE

Store the One Series Jig in their original, undamaged packaging in a clean, dry location away from extreme temperatures.
