

HILTON GARDEN INN

Lewisville, Texas

Project Statistics

- A six-story hotel with a 25,000 sq. ft. conference center.
- Nudura 8" forms were used on the first two floors, while 6" forms completed the structure above.
- The floor type is hollow core concrete floor slabs.
- The walls were built in a staggered manner between the two halves of the project, allowing for a continuous and seamless building process.
